

Your Project Needs an Arborist. Not Just Any Arborist.

P&X; provides **subject matter expertise in arboriculture, urban forestry, soil science, and regenerative landscape solutions** for engineering firms, developers, contractors, and property owners. We integrate into your project team as the specialist you need — delivering diagnostics, design, and oversight so your projects move forward with confidence.

CREDENTIALS & RECOGNITION

- **ISA Certified Arborist** — International Society of Arboriculture
- **ISA Certified Urban Forest Specialist** — one of a select group nationally
- **ISA Tree Risk Assessment Qualified (TRAQ)**
- **ISA Credentialing Council Member** — sets standards for the profession
- **Board of Directors** — Georgia Arborist Association
- **Grand Award for Excellence in Urban Arboriculture** — GA Tree Council, 2024
- **Young & Upcoming Professional Award** — Urban & Community Forestry Society, 2025
- **B.Sc. Environmental Science** — Emory University
- **Urban Forester & Sustainability Coordinator** — City of Sandy Springs (current)

6+ years in ecological management & urban forestry

State Parks (prescribed fire, habitat restoration, conservation)
Municipal government (policy, ordinance, development review)

HOW WE PARTNER WITH YOU

For Engineering & Consulting Firms

P&X; serves as your **arboricultural and ecological subconsultant**. We provide tree surveys, environmental assessments, preservation plans, and expert testimony that integrate seamlessly into your project deliverables. No need to staff a full-time arborist — bring us in when you need one.

For Developers & Builders

We handle **tree ordinance compliance, preservation planning, and landscape design** so your projects clear review faster. We speak the same language as the municipal reviewers because we are one. Our plans are designed to maximize buildable area while meeting every requirement.

For Contractors & Landscape Companies

P&X; is the **diagnostic and design brain** your clients need before the work begins. We assess sites, design solutions, write specifications, and manage projects — then refer the installation and execution work to you. A true partnership that expands both our businesses.

For Property Owners & HOAs

From individual homeowners to neighborhood associations, we provide **expert diagnosis of landscape problems**, regenerative design solutions, contractor selection and oversight, and long-term management planning. One trusted advisor who handles everything.

SERVICES WE DELIVER

- ◆ Tree Inventory & GIS Mapping
- ◆ Risk Assessment (TRAQ)
- ◆ Soil Diagnostics & Remediation
- ◆ Preservation & Protection Plans
- ◆ Regenerative Landscape Design
- ◆ Construction Monitoring
- ◆ Ordinance & Permit Consulting
- ◆ Nature-Based Stormwater Solutions
- ◆ Grant Writing & Funding Strategy
- ◆ Expert Witness & Testimony

Let's talk about your next project.

P&X integrates into your team, solves the hard problems, and makes your projects better. No overhead. No long-term contracts required. Just expert-level support when you need it.
